

HARDEN IN A NEW ROLE.

He Fights a Native Named Kaimi in San Francisco.

The Battle is Caused by the Beauty of a Spanish Girl, and the Valiant Leo Wins.

Francis L. G. Harden, who was recently deported from Honolulu by the Provisional Government for agitating a revolution, had a fistic contest last night, says the Examiner of the 11th.

His opponent was a full-blooded Hawaiian, John Kaimi. The grievance was that both sought the affections of the same girl, Senorita Carlotta Rosa Cahassa of San Antonio, Mexico.

The girl is about eighteen years of age and her parents own a large cattle ranch near San Antonio. She has been in San Francisco about four months on a pleasure trip and it was here that she met Kaimi, a gallant son of the sunny islands. He made love to her in true Hawaiian fashion and his affections were in part reciprocated and he believed he would be able to marry the senorita and take her to the islands with him until Harden appeared on the scene. Harden was introduced to Miss Carlotta at the Park two weeks ago, and it seemed to be a case of love at first sight. This greatly displeased Kaimi, who made known his anger and offered fight. Harden, accustomed to many encounters on battlefields and elsewhere, advised the young Hawaiian to accept the inevitable, or if he would not do so, to arrange a battle under Marquis of Queensbury rules. This was done after much difficulty, for Kaimi insisted on fighting in Hawaiian fashion, a combination of fighting, gouging and kicking.

The encounter took place at one o'clock this morning at a saloon on Mission street. Harden weighed 135 and Kaimi 145 pounds. Seconds were present and the police did not learn of the affair.

In the first round Harden opened vigorously with his left and landed heavily on Kaimi's nose, drawing blood. Kaimi attempted to butt and got into chancery, where he was engaged until the end of the round.

In the second round Kaimi landed two heavy body blows, Harden retaliating with a hard one on the jaw.

The fourth and fifth rounds Harden followed Kaimi around the ring, landing wherever he pleased without difficulty. Kaimi was virtually beaten. In the last round the Kanaka forgot all rules and began a rough-and-tumble fight, in which he was bested again.

HE WANTS ANNEXATION.

Strong Words From H. P. Baldwin at a Recent Meeting.

At a meeting of some members of the American Union party, last week, on Maui, H. P. Baldwin said:

"I, as a planter, want cheap labor, but I want above all things, annexation with the United States. I am willing to take my chances on the labor question. If annexation got rid of the present labor system there would be compensation in some other way, and these compensations would, I think, offset any drawback arising out of the abolition of the labor contract system. I believe that there are too many Japanese in the country now, and it would be better to bring in some other nationalities who would take their places. The planters took the Portuguese laborers until that immigration was stopped, not by the planters, but by the Portuguese authorities, who wished to fill up their own colonies. Attempts to get them, within several years, have failed. There will be, in case of annexation, a transition period in the labor matter. It may bring out the plan of co-operation, or share system. This system is common in Louisiana and Cuba. Any transition from one kind of labor to another will be slow. Annexation will help it out."

Fine Stationery.

The job department of this office now has in stock what is by long odds the finest line of fancy stationery ever brought to Honolulu. The lot includes all manner of dance programmes, menu cards, invitations, wedding cards and visiting cards. Something new for the town is a beautiful ball room badge. The dance card designs comprise covers suitable for military and civic organizations. Inspection of this stock is invited. Those who see it will not hesitate about ordering.

The Hawaiian Hardware Company tells something about the advantages of cable communication with the United States this morning.

A NEW STAMP.

It Is a 12-Cent Blue and Reads Republic of Hawaii.

There was placed on sale Saturday morning the first postage stamp carrying the words "Republic of Hawaii." It had been designed, ordered and brought in without the knowledge of the public. These quiet operations conspired to create a surprise. The fiends were startled.

The new stamp is a 12 cent blue. It is for the foreign parcels post and the island register services. E. W. Holdsworth, who is the creator of the artistic pictures on the stamp, will be commended for the beauty of the new one.

In the two upper corners are wheels of Mercury. This will please the bicyclists. Above the middle, within a scroll, reads "Republic of Hawaii." In the center is a tiny but very clear picture of a great ocean liner. Presumably the reproduction is that of the Canadian-Australian ship Arawa. Beneath this is "12" in figures, and on either side of the numerals the word "cents," in scrolls. Back of and above the latter are two leaves. The period is not used in the stamp except as an ornament on either side of the word "of."

The number of these stamps used will, of course, be comparatively small. The collectors then will be supplied by purchases from the Government.

An election has been ordered for a new Second Lieutenant in the First Company of Sharpshooters. Senator Henry Waterhouse has resigned his commission.

Meeting Notice.

NOTICE IS HEREBY GIVEN THAT there will be a social meeting of the stockholders of the HAWAIIAN AGRICULTURAL COMPANY at the office of C. Brewer & Co., (Ld.) in Honolulu, WEDNESDAY, October 31st, 1894, at 2 o'clock P. M.

Of Interest to Sugar Mill Owners

Managers and Agents of Plantations, and to Everybody Using Machinery.

The undersigned begs to inform the public that he has opened an establishment at the corner of QUEEN and NUUANU STS., HONOLULU, where will be kept in stock a full supply of Engineer's Findings; Steam and Water Pipe and Fittings; Brasswork, Finished and Rough; Hooker's Steam and Double Acting Pumps; Deep Well Pumps; Windmill Pumps; Hand Power Pumps of various designs.

Being sole agent and representative of the firm of W. T. GARRETT & Co., of San Francisco, who are manufacturers of this line of goods, I am enabled to sell at prices never before quoted in this market, saving my customers the wholesale and jobbers profits.

Agent for the Hawaiian Islands of the Richard's Lock Nut, which is an ordinary hexagon nut constructed so that it is impossible for the nut to become loose or slack, and fall off the bolt. It costs no more than the ordinary cold pressed iron nut and dispenses with the use of the lock washers, keys and split pins. This nut is now exclusively used on all the principal railroads and street cars lines in the United States. Samples and pamphlets furnished on application to the undersigned.

Agent for the Siphon Water Elevator, which is automatic, for irrigation, city supply, farms, etc. This invention as its name indicates is based upon the principle of the siphon known to the Ancients but it is devised in such a manner as to greatly enlarge the field of application. Used until today only for the drawing off of liquids to a lower level, the siphon now becomes an Automatic Water Elevator, which under favorable conditions is endowed with great powers. In many instances, land situated higher than the irrigation ditch can be irrigated at a nominal expense. The Siphon Elevator is especially adapted for such conditions, as it can elevate the water from the main irrigation ditch to a higher one, while the waste is available for irrigating the lower levels. The siphon elevators are made of brass and iron in sizes ranging in capacity of from two hundred to three million gallons per day.

Estimates and plans furnished for new machinery and repairs.

C. R. McVINEY, Consulting Engineer, Office and warehouse cor. Queen and Nuuanu sts., Honolulu. P. O. Box 457. Mutual Tel. 578.
